

NCF-10 Mold Turnover Machine

Description:

The mold turnover machine is mainly used for dislocation and turning-over of heavy object, to make goods change between vertical and horizontal direction. It is widely applied in mold producing industry, injection industry and die-casting industry. For vertical die press machine, NCF-10 mold turnover machine is inseparable auxiliary equipment. With rolling capacity 10T, it is a desirable product for adjusting of large mold.

Features:

1. It is easy to use and to operate.
2. Safety and Reliability
NCF-10 mold turnover machine is characterized by safety and reliability, stability, which avoids the disadvantage of manual turnover, like insecurity, which makes the turnover easy and fast.
3. It has compact structure and small space occupation

DONGGUAN NICE MACHINE BUILDING CO.,LTD

Address: NO.5, 1 Road Jiannan, Xiaoxiang Community, Wanjiang District, Dongguan, Guangdong.

Post Code:523048

Tel: +86-769-39012323 / 22707026 / 22707027

Fax: +86-769-39012300 / 22708240

E-mail:nice@nicemachine.net / alice@nicemachine.net

4.NCF-10 mold turnover machine can lock automatically when power is off.

Parameter:

Model	NCF-10 mold turnover machine
Rolling capacity	10T
Time for rolling by 90	25s
Size of bench surface	1400x1270mm
Height of bench surface	700mm
External size	1400x1900x1980mm
Central size	500mm
Motor power	3.0kw
Weight of machine tool	3.8T
